**Innovation
Challenges**

3 - 5 July 2024

TEHRAN IRAN

**Asian
Mayors
Forum**

1st Asian Cities Innovation Challenges

Iran-Tehran

About the event

Creating an opportunity for the participation and convergence of Asian citizens in line with AMF motto, "Asia for Citizens, Integration for a Better Life", has always been one of the most important pillars of this organization's activity. Reaching this aim is possible through organizing participatory international events covering a wide range of activities and fields such as education, joint projects, research, introducing capacities and so on.

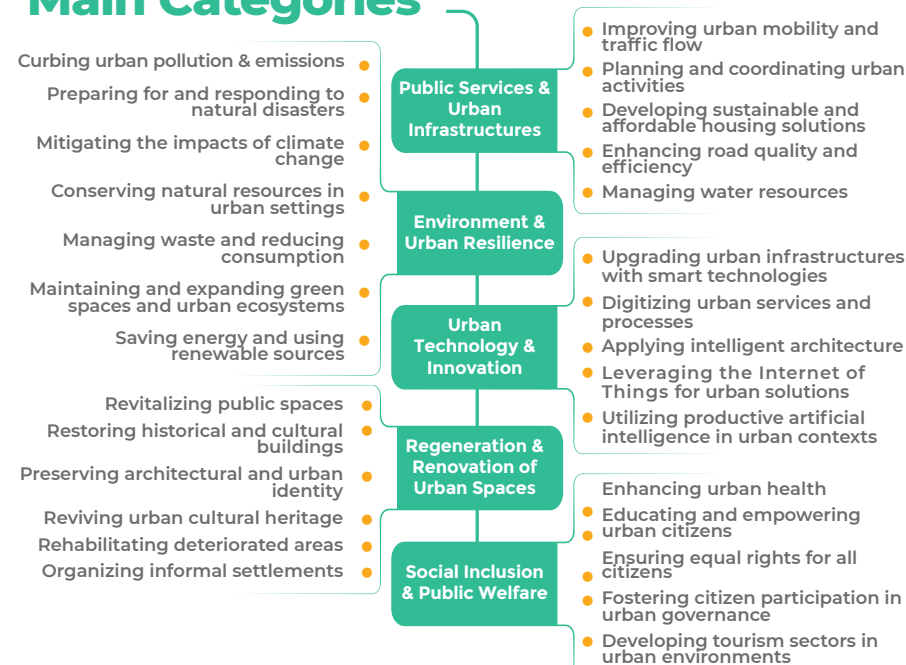

In recent years, startup weekends have been one of the creative steps taken in more than a thousand cities across the world, yielding useful and positive results. These innovative events provide a unique opportunity for learning and starting successful innovative businesses. Asian Mayors Forum intends to create such an opportunity for the Asian cities, holding a startup weekend under InCity umbrella platform. While benefitting from the innovation and skills of the startup businesses in solving the urban challenges, this will also help support the new ideas and innovative startups.

Urban challenges

Cities throughout Asia have identified a range of small to medium-scale challenges across various sectors and shared them with the secretariat of the Asian Mayors Forum. Now, it's your opportunity to contribute solutions to these challenges using your ideas, designs, and products, and become part of the urban business landscape.

Upon registration, our trainers and mentors will furnish participants with a comprehensive list of identified urban challenges.

Main Categories

Participants

Why should you participate in this event?

- Access to nine specialized training workshops
- Free mentorship with international coaches exclusive to each category (seed, sprout, sapling)
- Four nights of complimentary accommodation with meals, snacks, and transportation service to the event venue
- Opportunity to engage in the international business environment and present ideas/plans/products to Asian cities' authorities, ambassadors, and international organizations
- An international certificate of attendance at the event
- Chance to interact and exchange culture and experiences with fellow Asian citizens
- Ability to participate in bilateral and multilateral meetings with investors, heads of successful businesses, and cities' officials from across Asia, after coordination by the event organizers
- Possibility of receiving a full grant or entrance grant for all participants
- Opportunity to network with successful business owners from across the Asian continent
- Joining the InCity platform's entrepreneurial network and preparing for global expansion of designs and products
